SAFETY CERTIFICATION GUIDELINES: EDC PUBLISHING

EDC Publishing, the home of Usborne Books, has always shown a commitment to providing our customers the highest quality children's books in content and safety. That is why we are furnishing this statement concerning recent legislation that is directed toward increased safety in child-oriented products.

As you would have anticipated, all orders now being placed by Usborne Publishing UK with their printers will comply with required US Safety Standards. No books will be shipped to the United States that has not passed through the required independent third party testing safety requirements. Kid Kit components, all of which are purchased by EDC, are also being tested by EDC.

You can feel confident that EDC Publishing is complying with the required safety guidelines, that our products are tested, and that we keep up with the changes in the legislation as they occur.

We greatly appreciate your business and your trust in EDC Publishing.

*All required certificates of compliance are posted on EDC's website:
