# About Usborne Books

**Peter Usborne** Founder and Managing Director

Usborne is a world-leading children's book publisher: an independent, family business which creates engaging, innovative, accessible books for children of all ages. Usborne books are written to appeal directly to children, and are there for every age and stage from newborn baby to young adult. Children can grow with Usborne books.

USBORNE

Usborne books are almost all created by a super-talented team of 35+ editor/writers and over 50 designers who work in-house for Usborne. This makes us different from most other publishers (who usually commission outside authors to write books for them) and allows us to have complete creative control.

We spend as much time as we have to, to get things right. An Usborne book takes as long as it takes – it doesn't leave the building until it's just right. Sometimes that's a long time, but we believe that guality comes from time, care, attention, skill and passion.

We employ the brightest, most creative people and ask them to put kids at the center of everything they do. We ask them to think like kids and experience things like kids, with curiosity and wonder.

As a company we are constantly innovating, looking for new ways to engage children with books and reading – and we're ambitious for our readers. We know children are big thinkers with an insatiable hunger for fascinating facts and new ideas and we want to challenge them with complex topics.

About Kane Miller Beeks

> Kira Lynn Publisher

Kane Miller Books was founded over 35 years ago, and while many things have changed since then, our belief in the power, importance, and value of children's imaginations – and our commitment to providing space for those imaginations to flourish – has not.

From cloth to board, fiction to nonfiction, our list this season continues our celebration of children's life experiences, emotions, and extraordinary sense of wonder. From traveling to the ancient past in *Lifesize Dinosaurs* to joining an imaginary space journey in *Dr. Maggie's Grand Tour of the Solar System*, there are books for animal lovers and storytellers, dreamers and scientists – books for supporting creativity and for stretching imaginations.

We appreciate all your support over the years and we love hearing from you, so please visit our website, retailers.kanemiller.com, to learn more about our titles and to contact us directly with any questions or requests.

We wish you a happy 2020 and a prosperous beginning to this new decade!
